

Provider Secure Portal

Quickly Access Patient Information

Coordinated Care is your partner in providing the best care for your patients. We want to help you and your staff provide a higher level of service with instant access to your patients' information.

USE OUR PROVIDER PORTAL TO:

- Check patient eligibility
- View patient health records, including diagnosis, medications, inpatient hospitalizations
- View the PCP Panel
- View any patient gaps in care
 - If a patient is missing preventative services, offer those services during their appointment
- Submit and manage claims and adjustments
- View and request prior authorizations
- View Care Plans
- Contact Coordinated Care representatives securely
- Access policies and procedures for medical necessity

The secure provider portal is accessible to participating providers and their office staff who have completed the registration process once the contract is complete. Non-participating providers who have submitted a claim to Coordinated Care may also access the portal.

Please let us know if we can answer any questions.
